

RPT

beneficiary:

RPT

Beneficiary:

- The National Customs Authority
- Bucharest headquarters
- 11 regional branches
- Over 100 customs offices in the territory

Project purpose: To implement a software system for managing collection of taxes and corresponding payments to European Commission, management of A and B taxes classes.

Objectives:

- With the help of RPT system the own traditional resources are centralized and generated on national level in accordance to the communitarian budget
- The RPT system generates monthly reports which are transmitted to the European Commission
- Integration with the financial accounting system of Sivapps CAM

Technologies used:

- Oracle Forms 6
- Oracle Reports 6
- Oracle Database 8, 8i, 9i, 10g

Challenges:

- The operation of the own traditional resources control system within the communitarian countries is permanently monitored and it is the object of a periodical report of the European Parliament and Council
- Based on the Account A and Account B situations gathered from the RPT system, the Ministry of Finances makes payments to the European Community.
- Complex architecture: 3 hierarchical level for centralizing the data and over 100 database servers
- Large number of transactions: ex. Otopeni Customs
