

STRUCTURAL FUNDS

Structural Funds

Structural Funds:

After acquiring a rich experience through the implementation of projects financed through the European programmes FP6, Phare, **TeamNet** focused on structural funds.

Currently **TeamNet** has experts and collaborators who can provide consultancy and management to access non-reimbursable European funds to finance projects and programmes.

TeamNet provides complete solutions for the elaboration of projects for financing from European structural funds, drafting the documentation and providing support throughout the entire project financing and implementation process, through the following activities:

1. Information, evaluation and identification of the most suitable financing sources:

- Presentation of the financing programmes
- Economic-financial evaluation
- Management/administrative evaluation
- Identification of business opportunities and solutions
- Analysis of the enterprise eligibility for a financing programme
- Identification of financing sources

2. Designing and drafting the documentation required for financing:

- Business plans
- Costs-benefits financial, risks and sensitivity analysis
- Drafting financing documents:
 - The financing request
 - The business plan
 - (Pre)feasibility studies
 - Market studies
 - Opportunity studies
 - Technical design
- Marketing strategies

3. Support and consultation for the project implementation in order to comply with the contracting requirements:

- Response files to additional information request letters
- Consultancy in signing the framework financing contract
- Drafting the acquisition file
- Drafting payment request
- Technical and financial solutions during the project performance period
- Intermediate and final reports

4. Support in the final evaluation of the implemented projects
